

BLOOD PRESSURE MONITOR

This is the blood pressure monitor I use. It doesn't need to be the same but I do recommend an Omron model.

Omron M3 LED Blood Pressure Monitor

SKU: OM3
GTIN: 4015672104594
£32.99
Inc. VAT: £39.59

pH STRIPS

You don't need to have a pH meter. These testing strips will be sufficient.

Hydrion Urine & Saliva pH Paper 5.5-8.0

Description

This Hydrion pH Paper provides excellent color separation in both the acid range (below pH 7) and the alkali range (above pH 7). Commonly used to test urine and saliva, it offers an easy to read, single color match at every .2 to .3 interval from pH 5.5-8.0.

- The color chart has pH matches at [5.5][5.8][6.0][6.2][6.4][6.6][7.0][7.2][7.4][7.6][8.0]
- Each roll provides for approximately 100 tests.

pH Meter

If you are practicing this work professionally I recommend you purchase this pH meter.

Horiba pH11 LAQUAtwin pH Meter, 2 Point Cal, 0 to 14 pH

Manufacturer: [Horiba](#)
Condition: Brand New
Part #: HR-pH11
Ship Wt (lbs): 1.00
Availability: Ships within 5-7 days
Price: **\$120.00**

Glucometer

This is the glucometer I use. These things are standard so don't be too fussy when buying. They will all do the same job.

NOTE: You might be able to find a meter that comes with some measuring strips. If not however, you will also need to purchase some measuring strips at the same time (50 per box).

Refractometer

You have a range of options when it comes to purchasing a refractometer however you don't need to get too fancy with this tool. Just make sure it has a 0-32 Brix and specific Gravity scale and you will be good.

0~32% Brix Wort Specific Gravity Refractometer Beer
Juice Wine Sugar Measurer WS | eBay

Dual Scale: Brix Scale and Specific Gravity Scale Sturdy metal body, made of durable Aluminum Require ambient light source only Compact design with...
